### Professional Summary

Full-stack developer with hands-on experience in Node.js, MongoDB, and responsive front-end design.

Passionate about building practical tools that empower real-world teams. Open to remote or hybrid roles in tech support, web development, and administrative systems.

### Skills

- English(fluent)
- MySQL, SQL,
- Digital Proficiency
- Python
- Html5
- JavaScript (ES6+)
- React
- French(fluent)
- Microsoft Office
- Integrity-Driven Approach.
- Css3
- C#
- Node.js, Express.js
- Next.js

### Experience

**Freelance Web Developer** Johannesburg, South Africa

Present

- Security Duty Scheduler (In Progress): Designed a responsive dashboard with sidebar navigation, modular folder structure, and authentication scaffolding. Built backend routes using Node.js and Express; integrated MongoDB for data persistence.
- Creative Coding (CodePen Projects): Built interactive layouts and visual effects using HTML, CSS, and JavaScript. Explored animation techniques, hover interactions, and component-based design.
- Technical Communication: Drafted and refined professional messages, proposals, and documentation for team and church contacts. Demonstrated clarity, empathy, and precision.
- Platform Integration: Added branded footers and social links to GitHub, LinkedIn, and CodePen. Troubleshoot save issues on Roadmap.sh and daily.dev.
- Version Control & Collaboration: Used GitHub for code management and issue tracking. Engaged with developer communities on LinkedIn.

### Education

#### Web Computer Programming Certificate

Brigham Young University – Idaho,

2025

- Learned software design principles and problem-solving techniques.
- Converted software requirements into functional code.
- Strengthened communication and teamwork through collaborative projects.

#### Web Development Certificate

(Expected 2025)

Brigham Young University – Idaho

- Mastered frontend development with HTML, CSS, JavaScript, and modern frameworks.
  - Built dynamic applications with backend programming and secure APIs.
- Studied SQL and relational database design.

- Explored RESTful APIs, authentication, and scalable architecture.
- Completed full-stack projects and peer code reviews.

**PathwayConnect Certificate**

BYU – Pathway Worldwide,

2022

- Improved English proficiency (written and spoken).
- Developed leadership, time management, and decision-making skills.
- Strengthened mathematical reasoning and online collaboration.
